FEED GRADE

PRODUCT SPECIFICATION

Tri-Calcium Phosphate (TCP) FEED GRADE

Product Description

Ingredients/Composition: Tri-calcium Phosphate $Ca_3(PO_4)_2$

CAS NO: 7758-87-4

Executive standard: GB 34457-2017

Parameters	Unit	Standard
Appearance	/	Light yellow granular form
Main Content	%≥	98.0
Total Phosphorus	%≥	18.0
Calcium	%≥	30.5
Sodium	%≥	4.0
Fluorine (F)	≤mg/kg	1800.00
Arsenic (As)	≤mg/kg	10.0
Lead	≤mg/kg	20.0
Cadium	≤mg/kg	30.0

Usage:

It can be used as the supplementary raw materials of phosphorous and calcium to be used in formula feed, mixed feed, and other for chickens, pigs, cattle, fish, and other poultry, which can be used for poultry monomers. Tri-calcium phosphate has high biological utilization while improving the metabolism of cattle, pigs, chickens, and fish, it also promotes the growth and development of poultry.
